

Flagship Luxury

Waterfall front face, an inheritance of family DNA

As an inheritance of the classic design language of the family, the waterfall grille echoes with the emblem to demonstrate supreme heroism.

Stable body system for stable drive

With CDC variable damping system and air suspension control technology, the vehicle is automatically adjusted to road conditions or load to stabilize the body on a single horizontal line for calm and comfortable experiences.

Luxury encircled design of the central console for exclusive elegance

Encircled design of the central console with the driver as the center, together with an aluminum decoration strip running through like a wing-stretching eagle, showcases the noble grace with dynamic posture.

Super-large panoramic sunroof for breath-taking views

710mm x 1238mm super-large panoramic sunroof for transparent space and infinite enjoyment.

Extreme Enjoyment

BOSE 5.1 surround audio system for the extreme satisfaction

14 high quality BOSE speakers are equipped around the cabin to express sound details with fidelity and create immersive acoustic enjoyment inside the vehicle.

Top interior trim materials for the most luxury style

With world-class Nappa leather and solid wood decoration for the seats and chamois leather for roof liner, a flagship luxury space is presented to you.

Backseat infotainment system for immersive multimedia enjoyment

Start your life of fun with double 10.1-inch HD touch displays that integrate music, video, connection and many other entertainment functions.

Triple zone climate control for personalized comfort

Triple zone climate control with independent A/C for driver's seat, front passenger seat's and back seat coordinates with inner air purification system to create natural and fresh inner environment for you.

Outstanding Dynamics

Powerful mechanic supercharged engine to give you surging power

High-performance 3.0T V6 mechanic supercharged engine takes only 7.8s to accelerate to 100 km/h, giving you the thrill of instant transformation from stillness to movement.

8-speed AMT to match your talent

New generation of 8-speed AMT for comfortable driving experience and excellent fuel economy.

Thrilling Off-road Experience

Exclusive off-road mode for the fun of conquer

Constant breakthroughs with professional off-road performance powered by the TCS all-wheel power control technology exclusively customized by Bosch.

Advanced in-class air suspension system makes you at ease in rough road conditions

The air suspension system controls the ground clearance in real time to ensure stability in rough road conditions.

8 Driving modes for easy harness of all road conditions

8 driving modes for all road conditions, easy solution to difficult terrains at your choosing.

Utmost Safety

Rear blind spot warning system for worryless high-speed drive

Rear blind spot warning system warns the driver through display on the instrument panel and highlighted rearview mirror icon, guarding your journey in all dimensions.

Full coverage airbag system for a safe mobile harbor

Comprehensive protection from up to 8 airbags plus early warning force-limited seat belts for the front seats and force-limited seat belts for the rear seats.

Super strength vehicle body for whole-journey protection

Built with super strength steel, the "9H" vehicle structure protects passengers inside its super strong cage-like vehicle body.

AEB automatic braking for easy response to emergency

Industry-leading active brake system detects distance from front vehicle (or pedestrian) in real time and initiate automatic brake to prevent imminent collision to ensure safety when the vehicle runs at a speed less than 80km/h.

Smart Connection

Enjoy effortless and smart life with auto parking for all scenario

Vertical, horizontal and slant parking modes at your choosing for easy parking.

SACC for smart assistance with real time road conditions

When the vehicle travels under 150km/h, SACC system may automatically accelerate, decelerate and follow in accordance with real time road conditions to cope with long distance and fatigue driving.

Hongqi mobile phone connection for easy monitor of vehicle status

With remote vehicle control, one-click vehicle examination, online maintenance and other services can be achieved easily through Hongqi mobile phone connection system.
